SmarTeam Quick Create Tool

Challenges
- Time-consuming to create new objects, and associate documents to them, in SmarTeam based on existing objects

Solution
- SmarTeam Quick Create Tool
  - Allows easy creation and document-linking for new objects based on existing SmarTeam objects

Features
- A class tree display for new object's class selection
- Automatic data mappings from original to new object
- Options for associating templates and new documents for the new objects
- Class-based "view" selection for the new object
- May link new object to existing object

Benefits
- Expedites new object creation and document-linking in SmarTeam from existing data/objects
